

## **Heads Up!**

### **A new product is on the market!**

For more than a year, Richard Thetford has been working very hard on a PowerPoint Presentation to accompany our book *The History and Geography of the Bible Story*. It is now available on CD for you to use as you study Bible geography for yourself or to teach a class. Are you homeschooling your children? This is a perfect choice. Or, use it as a backdrop for any study of the Bible narrative.

Richard has done very careful work. There are more than 900 slides covering all 52 lessons in the book. Bob and I have worked very closely with him to be sure he and we are all thinking alike in the presentation. We express our highest approval for the presentation.

Order a CD today and check it out. I think you will like it. We do!

*Bob and Sandra Waldron*
